

GenAI-Campus
AI-powered Learning Journey

Empowering Every Learner's Journey!

GenAI-Campus provides a playful and engaging platform with personalized learning paths, AI-powered tools, and robust support for students, parents, and educators.

N

For Students

Interactive Lessons

Engage with rich multimedia content, including videos, audio, and interactive elements designed for effective learning.

Progress Tracking

Monitor your learning journey, see how far you've come, and stay motivated with clear progress indicators.

AI Note Taker

Automatically summarize key points from your lessons, helping you focus and revise efficiently.

Personalized Quizzes

Test your understanding with quizzes tailored to each lesson, reinforcing concepts and identifying areas for improvement.

Rewards & Badges

Earn badges and unlock achievements as you complete lessons and master new skills, making learning fun.

For Parents

Child Progress Monitoring

Stay informed about your child's academic journey with detailed progress reports and performance insights.

Direct Communication

Easily connect with teachers to discuss your child's learning, ask questions, and collaborate effectively.

Report Card Access

View and download your child's report cards digitally, keeping all academic records organized and accessible.

School Event Calendar

Keep track of important school dates, holidays, exams, and meetings with a synchronized calendar.

For Schools & Teachers

Content Management

Easily create, organize, and update lessons, quizzes, and supplementary materials for your students.

Student & Class Management

Oversee student profiles, track class performance, and manage enrollments efficiently.

AI-Powered Report Generation

Generate comprehensive student report cards with insights, saving time and enhancing feedback.

School-Wide Announcements

Communicate important updates, events, and news to students, parents, and staff seamlessly.

School Administration Portal

Manage school settings, user accounts, and access platform-wide analytics for institutional improvement.

English

Primary School Class 2 Subject - English

Subject Progress

100%

2 of 2 lessons completed.

Lessons in English

 1. Lesson 1 | Class 2

 2. Lesson 2 | class 2 

⊕ Lesson 1 | Class 2

Subject: English

I've updated the `__str__` methods for the Class and Subject models in `content/models.py`. Now, when you go to the Django Admin to add a new Lesson, the "Subject" dropdown should display entries like "Mathematics (Class 5 - Oakwood Academy)", making it much clearer which school the subject belongs to. This doesn't require new migrations as it's only a change to how the objects are represented as strings.

Video:
